At a Glance: Kim Chandler was among the first vocal coaches to seize upon the idea of vocal warm ups in contemporary rather than classical genres. Her exercises are both comprehensive and user-friendly. CD 1: Vocal Exercises is aimed at beginners while the latest addition to the range, CD 4: Challenging Riffs, is designed to challenge the seasoned pro vocalist.

High Notes: Users report high enjoyment/benefit from using these CDs. In addition to the more usual technique aspects (such as breathing, range and articulation), these exercises cover a wealth of musicianship areas—everything from rhythm to intervals and modal and chromatic harmonies.

Off Pitch: While VoiceCouncil is aware of a great many informal endorsements from satisfied customers, there are currently no independent reviews for this product. So, if you disagree (or agree!) with our rating, you know what to do...

A Vocal Coach Says: “I suggest you buy the CD’s from ‘Funky ‘N Fun’. They include breathing exercises, as well as lots of other vocal workouts; they, in my opinion, are the best CD’s on the market.” Gemma Denman
